smarTfold™ 300Plus

SmarTrike® is proud to introduce the Revolutionary Folding Trike.

The 6 in 1 Folding Trike™ is designed for babies from 10 months and grows with the child! It's designed for easy folding and compact storage. No hassle assembly – no tools required. No dismantling. Just a few clicks and the trike is ready to use. Traveling? Just a few clicks and the product folds compactly for easy storage in any car and is the perfect, lightweight carry-on for air travel. SmarTrike's unique and sort-after patented Touch Steering® remains a key feature of the Folding Trike™. The mudguard navigator button lets one switch from parent Touch Steering® to child ride-control. Shock absorbers give baby a 100% comfort ride and the kids handle bar is adjustable in 2 positions.

Stage 1: Compactly folded trike – opens easily. No assembly. Fits easily in any car.

Stage 2: At 10 months baby sits comfortably & securely on high-back seat with soft-padded safety bar & footrest.

Stage 3: At 18 months remove canopy as baby grows. Baby enjoys the ride while developing confidence, balance & motor skills.

Stage 4: At 24 months close footrest, attach pedals & switch navigator button – kids learn to pedal on training trike.

Stage 5: At 30 months telescope parent handle closed; the product becomes an independent trike that kids pedal by themselves.

Stage 6: From 32 months remove high back support. Kids continue their fun-filled rides.

This state of the art Folding Trike™, loaded with features, is set to take the world by storm!

stage 1 | folding

stage 2 | 10M+

stage 3 | 18M+

stage 4 | 24M+

stage 5 | 30M+

stage 6 | 32-36M
